TO IMPROVE CAPACITIES FOR THE SUSTAINABLE USE OF CULTURAL HERITAGE AND RESOURCES

Built Heritage, Energy and Environmental-friendly integrated tools for the sustainable management of Historic Urban Areas

TAKING COOPERATION FORWARD

1. To enhance and promote an integrated approach for sustainable management of Historic Built Areas (HBA), based on monitoring of **the interactions between preservation of cultural values and environmental-friendly development** as main strategy for complexity management, efficiency and conflicts reduction.

2. To define a common understanding and approach to HBA management, as a basis for **improving**
 - **governance,**
 - **technical tools and capacities,**
 - **community involvement;**

3. To improve **efficiency in HBA related decision making and management processes**, such as monitoring and evaluation, risk prevention, environmental sustainability, conservation, reuse;

4. To improve **stakeholders, experts and community involvement** in the HBA management by activating Local Support Groups.
